- Specialist teaching through SHARES coaches - **£11,500.08**

Impact statement

The Sports Premium funding has been used strategically to enhance the quality of physical education, increase pupil participation in sport and physical activity, and improve the confidence and expertise of staff in delivering high-quality PE lessons.

Funding was allocated to ongoing professional development for teaching staff through SHARES. This provided staff with access to high-quality training, coaching and support, enabling them to deliver PE lessons with increased confidence and subject knowledge. This resulted in;

- Improved teacher confidence and competence in teaching PE.
- Enhanced quality of PE provision across the school.
- Increased sustainability through upskilling staff, ensuring improvements have a long-term impact on pupils.

Investment in equipment and maintenance ensured pupils had access to safe, high-quality resources to support a broad and balanced PE curriculum. New equipment has improved the range of opportunities for pupils to participate in a wider range of sporting activities. The equipment they need is safe and accessible for the needs of the curriculum.

Football coaching and lunchtime clubs were delivered by Community Multi-Sports, providing pupils with additional opportunities to engage in structured physical activity beyond curriculum time.

Funding ensured pupils were able to access swimming lessons and work towards meeting National Curriculum swimming requirements. Pupils developed essential water safety and swimming skills. There was improved confidence and competence in aquatic activities.

Specialist sports coaches worked alongside school staff to deliver high-quality PE lessons and provide expert instruction across a range of sporting disciplines. This has supported the raise in standards in PE through specialist teaching.

Swimming and water safety outcomes

The DfE expects schools to publish the percentage of Year 6 pupil who can meet each of these competencies by the end of Key Stage 2.

Swimming Data 2025 – 2026

Percentage of current Yr 6 who can swim completely confidently and proficiently over a distance of 25M – 54%

Percentage of current Yr6 who can use a range of strokes effectively;

10m front and back – 56%

25m front and back only – 28%

25m front and breaststroke – 0%

Percentage of current Yr 6 who can perform safe self rescue in different water based situations – 69%

Summary

The Sports Premium funding has had a significant positive impact on both pupils and staff. Pupils have benefited from increased participation opportunities, improved access to high-quality equipment and specialist coaching, and enhanced provision for swimming and extracurricular sport. Staff have developed greater confidence and expertise in delivering PE, ensuring sustainable improvements to the quality of physical education across the school.

As a result, participation in physical activity has continued to increase, pupils demonstrate greater enthusiasm for sport, and the school's capacity to deliver a high-quality PE curriculum has been strengthened for the future.
